Making 3D projects from most of your images is easy and fun. Make ornaments, garland, table centerpieces, etc.

CRICUT®: WHAT WAS USED

Cricut Mni® Personal Electronic Cutter

Christmas Advent

OTHER MATERIALS NEEDED

scissors

heavy cardstock

glue gun

STEP 1

Cut out two images. I used one of the free cut Christmas Village reindeer. I hid the rest of the image so I could use just the reindeer, size will depend on what you are making these are 2-3".

Cut out two images

STEP 2

Now cut first image from top, in center straight down about half way. Take second cut and cut from bottom, center, straight up about half way.

STEP 3

Now take second cut and fit opening into first cut S;ide it through slit until both bottoms are level. Some will be able to stand up, some for example the heart will not.

STEP 4

Glue gun is opotional, use your favorite hlue. I used a dot on both top and bottom to secure it together.
Now you have your own 3d project out of just about any image. I have made a church, butterfly, bird, star, and so many more fun images.
Have fun.
