

Design by: AmyW (8 Projects) About me: At first I got my Cricut for my scrapbooks and then I discovered there are so many other uses for it. Even though I am a $\ mom\ of\ three\ boys\ I\ still\ sneak\ in\ the\ glitter\ and$ rhinestones!

Project skill level: easy Project time: 30 minutes to 1 hour Project tags: Easter Celebration Cards

Animals Seasonal Cards Cards Southwest

The bunny paired with a little glitter and pastel card stock makes a very cute Easter card. Don't forget to add some flowers for the spring look.

CRICUT®: WHAT WAS USED

Oricut Expression® Machine with Plantin SchoolBook and Accent **Essentials®**

- yellow glitter
- iridescent chunky glitter
- purple ink pad

- · light purple card stock
- pink card stock
- yellow card stock
- glue dots
- clear fine glitter
- · sewing machine

PROJECT CUT FILES

Southwest Easter Card AmyW.ccr

First you will need a A8 size card (5.25" x7.75"). A rectangle of light green card stock cut at 6.50" x4.75 and run it through the polka dot embossing folder. Ink it lightly with the purple ink pad. Also ink the edges of the card.

Then cut out all the cuts. Bunny - 3.50", cut both layers of the Flowers - 1", cut all the phrase layers for the in purple, blue and pink found on on page 24 page at 5" (relative). You do not need the happy birthday cut.

STFP 3

Ink the bunny with purple ink and the flowers with blue ink around the edges. Then glitter the bunny and flowers. Don't forget to add the ribbon to the rabbit.

STFP 4

Place the light green rectangle in the middle of the card. Glue the blue layer to the purple and then sew around the edges. glue the pink layer and then sew around the edges. Attach to card. Then attach the glittered bunny and flowers.

STEP 5

I made the Happy Easter on the inside of the card by cutting blue layer again but in purple with the words Happy Easter. I also cut the layer in yellow without words. This is all set up in the file I have included from CCR.
